4 (3) salmon and steelhead are essential to the
5 spiritual and cultural practices of many Indian
6 tribes in California and those Indian tribes have suf-
7 fered as a result of the decline in salmon and

9 (4) habitat protection is an essential component
10 in the recovery of endangered salmon and steelhead

21 date of enactment of this Act, the Secretary con-

 9 mechanized transport or motorized equipment in the
 10 Areas shall be based on the selection of the min-
 11 imum tool or administrative practice necessary to ac-
 12 complish the purpose of maximum salmon habitat
 13 protection with the least quantity of adverse impact
 14 on wilderness character and resources.

15 **SEC. 104. DESIGNATION OF WILDERNESS STUDY AREAS.**

16 (a) IN GENERAL.—In furtherance of the Wilderness
 17 Act (16 U.S.C. 1131 et seq.), the following public land

 20 as to the suitability of the land for preservation as wilder-
 21 ness:

22 (1) Certain land in the Shasta-Trinity National
 23 Forest comprising approximately 35,000 acres, as

21 tion shall be administered by the Secretary concerned so
22 as to maintain the wilderness character of the areas in
23 existence on the date of enactment of this Act and poten-
